

METHODIST COLLEGE OF ENGINEERING & TECHNOLOGY
 (An Autonomous Institution)
 M.E. (Computer) IV Semester (Regular) (A124) Examination - January-2024

Subject: SOFTWARE ENGINEERING
Time: 3 hours

PART-A

Answer All the questions.(10X2M=20M)

Q.No.	Questions	Marks	CO	CTL
1. a	Define Software Engineering.	2	CO1	L1
b	What is Software Crisis?	2	CO1	L1
c	What is Software Requirements Specification (SRS)? List its components.	2	CO1	L2
d	Define Function Point Estimation.	2	CO2	L1
e	What is a Use Case Diagram?	2	CO3	L4
f	Define Regression Testing.	2	CO3	L1
g	What are the types of Software Assurance?	2	CO4	L1
h	Define Software Assurance.	2	CO4	L1
i	Define Software Assurance.	2	CO4	L1
j	Define Software Assurance.	2	CO4	L1

Section B

Page No. / Date

Answer Any Five questions (10 x 4 = 40M)

Q No	Questions	Mark	CO	LO
2.	Explain Waterfall and Incremental Process Models with suitable examples.	8	CO1	L1
3.	Discuss Agile Manifesto and Scrum framework with an example.	8	CO1	L2
4.	Explain Requirement Elicitation, Analysis and Validation activities.	8	CO2	L3
5.	Describe LOC and Function Point estimation techniques with examples.	8	CO2	L3
6.	Draw and explain Use Case and Class Diagrams for a Library Management System.	8	CO3	L3
7.	Explain DFD symbols, rules and construct Context, Level-0 DFD for an Online Shopping System.	8	CO3	L3
8.	Discuss White Box and Black Box testing techniques with suitable examples.	8	CO4	L4
9.	Explain Software Quality Metrics and Software Reviews in Software Engineering.	8	CO5	L4
